

For 2017, the **FIAT 500X crossover** offers three distinctive trim levels. Standard on 500X Pop is **the proven 1.4-liter MultiAir Turbo I-4 mated to the six-speed Manual**; on Lounge and Trekking models, **the 2.4-liter Tigershark I-4 with MultiAir2 teams up with the compactly packaged nine-speed Automatic transmission**. Add available **All-wheel drive (AWD) with fully disconnecting rear axle**, and you're looking at **formidable contenders for fleets of all sizes**. Classified as a crossover utility vehicle, 500X delivers a significant bang for the proverbial buck: standards here are at the premium grade, including **Chapman rear suspension with coil springs, twin-tube shocks and all-season tires**. Inside, amenities include a **fold-flat front passenger seat, a huge cargo area, and a long list of safety and security features**. To that, add some well-equipped convenient packages to customize your FIAT 500X to your fleet.

⁽¹⁾Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. ⁽²⁾Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system or with the seat belt positioned correctly for the child's age and weight. All occupants should always wear their lap and shoulder belts properly. ⁽³⁾No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ⁽⁴⁾Always check visually for pedestrians and vehicles prior to proceeding or changing lanes. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. ⁽⁵⁾SiriusXM services require subscriptions, sold separately after the 12-month trial included with the new vehicle purchase. **If you decide to continue your service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call SiriusXM at 1-866-635-2349 to cancel. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com.** All fees and programming subject to change. Trial service is not transferrable or refundable. The SiriusXM Travel Link data displays and individual product availability vary by vehicle hardware. Not all vehicles or devices are capable of receiving all Travel Link services offered by SIRIUSXM; Weather Forecast, Current Conditions may not be available in all locations; and features of individual systems will vary. SIRIUSXM is not responsible for any errors or inaccuracies in the SiriusXM Travel Link services or their use. Our satellite service is available only to those at least 18 and older in the 48 contiguous USA and D.C. Our Sirius satellite service is also available in PR (with coverage limitations). Our Internet radio service is available throughout our satellite service area and in AK and HI. ⁽⁷⁾This system is not intended to avoid collisions on its own, nor can FCW detect every type of potential crash. The driver must remain aware of traffic conditions and prepared to brake and steer to avoid potential collisions at all times. ⁽⁸⁾This system is a driver's convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and maintain control of the vehicle.
