<sup>1</sup>Based on 2016 EPA estimates, actual mileage may vary.

<sup>(1)</sup>Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. <sup>(2)</sup>Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system or with the seat belt positioned correctly for the child’s age and weight. All occupants should always wear their lap and shoulder belts properly. <sup>(3)</sup>No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. <sup>(4)</sup>See dealer for details and a copy of this limited warranty. <sup>(5)</sup>Always check visually for pedestrians and vehicles prior to proceeding or changing lanes. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. <sup>(6)</sup>The Uconnect® Phone requires a mobile phone equipped with the Bluetooth® Hands-Free Profile. To check phone compatibility please visit UconnectPhone.com. <sup>(7)</sup>2016 EPA estimates. Actual mileage may vary. <sup>(8)</sup>This system is not intended to avoid collisions on its own, nor can FCW detect every type of potential crash. The driver must remain aware of traffic conditions and prepared to brake and steer to avoid potential collisions at all times. <sup>(9)</sup>ACC is a driver convenience system, not a substitute for active driver involvement.
