

Packed with innovations and built for versatility, this crossover offers fleets a truly impressive list of assets and advantages that start with the efficiency of getting over 500 highway miles on a single tank of gas. In either **front-wheel- or all-wheel-drive configurations**, and with the available and indispensable **third-row seating** providing **comfort for seven occupants**, Journey rounds out convenience with excellent storage options, **a tri-fold floor (that handles up to 250 lb of cargo)**,⁽¹⁴⁾ and up to 68 cubic feet of cargo space, along with superb connectivity. When it comes to comfort and convenience, you've come to the right place. Dodge Journey GT and Crossroad models combine fuel-efficient power with state-of-the-art telematics and connectivity that increasingly focus on hands-free technology. Add to that **a long list of safety and security features designed for fleets that includes available ParkSense Rear Park Assist⁽⁵⁾ and ParkView Rear Back-Up Camera⁽⁵⁾** and Dodge Journey shines as the crossover to complete your fleet.

PRODUCT HIGHLIGHTS

Engine choices:

- 2.4L DOHC I-4 World Engine with Dual Variable Valve Timing (VVT), with 19 city/26 hwy mpg⁽⁸⁾
- 3.6L Pentastar[®] V6, with 17 city/25 hwy mpg⁽⁸⁾

Flex Fuel (E-85) capable (Pentastar Engine) – Available

Front-wheel-drive or all-wheel-drive configurations

⁽¹⁾All dimensions are in inches unless otherwise noted. ⁽²⁾2016 EPA estimated. Actual mileage may vary.

⁽¹⁾Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. ⁽²⁾Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system or with the seat belt positioned correctly for the child's age and weight. All occupants should always wear their lap and shoulder belts properly. ⁽³⁾No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ⁽⁴⁾Always check visually for pedestrians and vehicles prior to proceeding or changing lanes. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. ⁽⁵⁾2016 EPA estimates. Actual mileage may vary. ⁽⁶⁾In-dash DVD capability is not available in all states. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. See your dealer for details. ⁽⁷⁾When properly equipped.
