

Properly secure all cargo.

Ram 2500/3500 pickups boast **capability to impress** and bring formidable power to the job site.

Ram 2500: standard 5.7-liter HEMI V8, available 6.4-liter HEMI V8 and two available 6.7-liter Cummins Turbo Diesels with “smart” exhaust brake. On **Ram 2500**, a **five-link coil spring rear suspension** delivers outstanding comfort and hauling capability.

Ram 3500: standard 5.7-liter HEMI V8 (SRW), standard 6.4L HEMI V8 on Dually. Available 6.7-liter Cummins Turbos with “smart” exhaust brake; here, strength maxes out with the **High-Output Cummins and its 900 lb-ft of torque**. Add available towing of **31,210 lb⁽¹⁴⁾** – and this pickup delivers all the capability you count on.

Both models: recent frame developments to help enhance **gooseneck and fifth-wheel towing and hauling**, topped with the available **Auto-Level Rear Air Suspension System**. When only standout strength and capability will do for your fleet, Ram Heavy Duty 2500/3500 pickups stand alone – and stand ready for work.

⁽²⁾All specifications shown are based on vehicle information available at the time of publication.

⁽³⁾Does not include allowances for wheelhousings.

⁽¹⁾Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. ⁽²⁾Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system or with the seat belt positioned correctly for the child's age and weight. All occupants should always wear their lap and shoulder belts properly. ⁽³⁾No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ⁽⁴⁾Always check visually for pedestrians and vehicles prior to proceeding or changing lanes. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. ⁽¹⁴⁾When properly equipped. ⁽¹⁷⁾Requires a mobile phone equipped with the Bluetooth® Hands-Free Profile.
